**Before submitting, check this box to acknowledge that all measurements and quantities on this form are correct.**

# L INSIDE

- All dimensions must be listed in inches
- The total of A + B must = 48" or less
- A 54" board can be used if A + B = more than 48" and less than 54"
- Standard profile lengths are 96" (8'), 120" (10'), and 144" (12')
- Custom profile lengths will incur additional cut charges
- Unless noted, all shapes will have 1 factory edge minimum
- If using pan head framing screws, add 1/16" to measurements

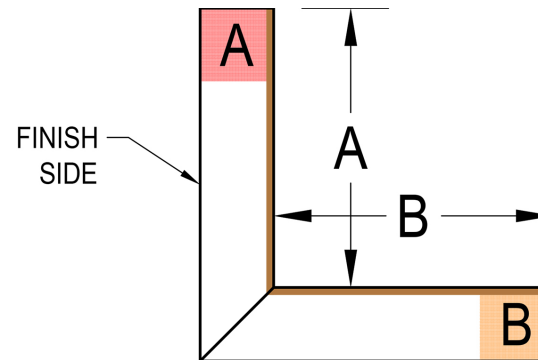

JUMP TO

[illegible]

# L OUTSIDE

- All dimensions must be listed in inches
- The total of A + B must = 46.75" or less
- A 54" board can be used if A + B = more than 46.75" and less than 52.75"
- Standard profile lengths are 96" (8'), 120" (10'), and 144" (12')
- Custom profile lengths will incur additional cut charges
- Unless noted, all shapes will have 1 factory edge minimum
- If using pan head framing screws, add 1/16" to measurements

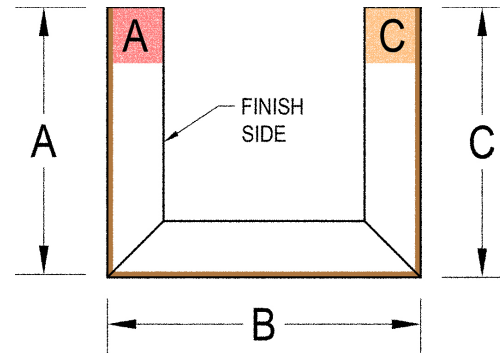

JUMP TO

[illegible]

# U INSIDE

- All dimensions must be listed in inches
- The total of A + B + C must = 48" or less
- A 54" board can be used if A + B = more than 48" and less than 54"
- Standard profile lengths are 96" (8'), 120" (10'), and 144" (12')
- Custom profile lengths will incur additional cut charges
- Unless noted, all shapes will have 1 factory edge minimum
- If using pan head framing screws, add 1/16" to measurements

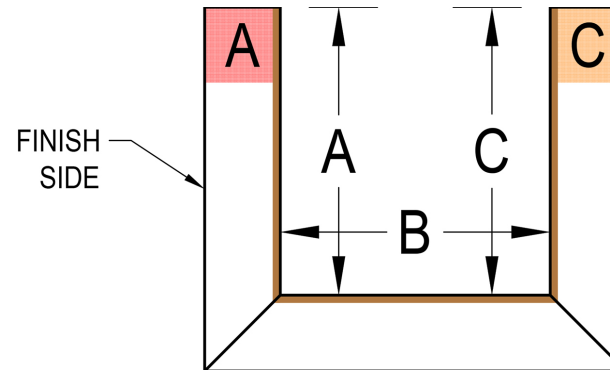

JUMP TO

[illegible]

# U OUTSIDE

- All dimensions must be listed in inches
- The total of A + B + C must = 45.5" or less
- A 54" board can be used if A + B + C = more than 45.5" and less than 51.5"
- Standard profile lengths are 96" (8'), 120" (10'), and 144" (12')
- Custom profile lengths will incur additional cut charges
- Unless noted, all shapes will have 1 factory edge minimum
- If using pan head framing screws, add 1/16" to the B measurement

JUMP TO

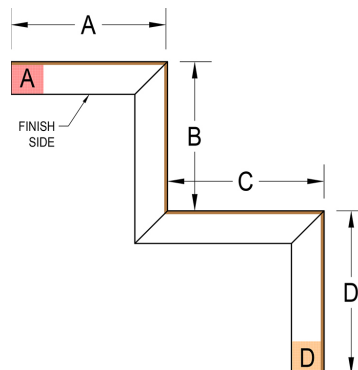

[illegible]

## STEP INSIDE

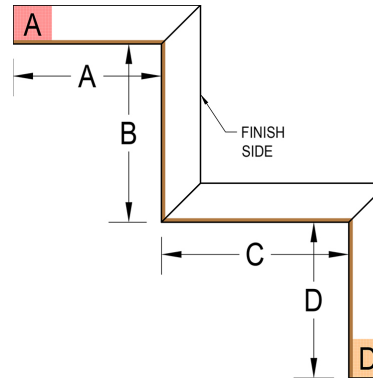

**JUMP TO**

- All dimensions must be listed in inches
- The total of A + B must = 46.75" or less
- A 54" board can be used if A + B = more than 46.75" and less than 52.75"
- Standard profile lengths are 96" (8'), 120" (10'), and 144" (12')
- Custom profile lengths will incur additional cut charges
- Unless noted, all shapes will have 1 factory edge minimum
- If using pan head framing screws, add 1/16" to measurements

[illegible]

## STEP OUTSIDE

- All dimensions must be listed in inches
- The total of A + B must = 45.5" or less
- A 54" board can be used if A + B = more than 45.5" and less than 51.5"
- Standard profile lengths are 96" (8'), 120" (10'), and 144" (12')
- Custom profile lengths will incur additional cut charges
- Unless noted, all shapes will have 1 factory edge minimum
- If using pan head framing screws, add 1/16" to measurements

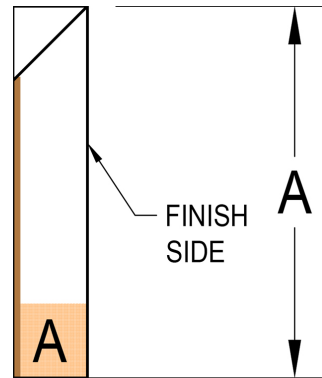

JUMP TO

[illegible]

# WINDOW RETURN

- All dimensions must be listed in inches
- The total of A + B must = 47.325" or less
- A 54" board can be used if A + B = more than 47.325" and less than 53.325"
- Standard profile lengths are 96" (8'), 120" (10'), and 144" (12')
- Custom profile lengths will incur additional cut charges
- Unless noted, all shapes will have 1 factory edge minimum
- If using pan head framing screws, add 1/16" to measurements

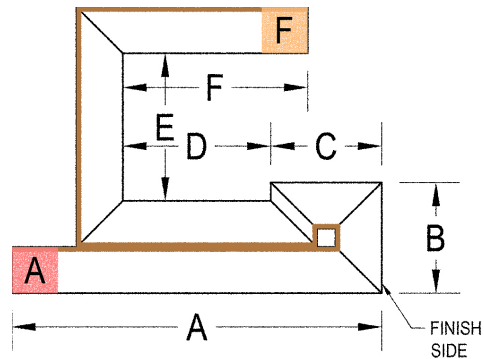

JUMP TO

[illegible]

## LIGHT COVE

JUMP TO

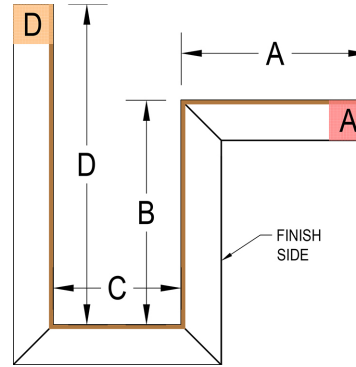

- All dimensions must be listed in inches
- The total of A + B must = X" or less
- A 54" board can be used if A + B = more than X" and less than X"
- Standard profile lengths are 96" (8'), 120" (10'), and 144" (12')
- Custom profile lengths will incur additional cut charges
- Unless noted, all shapes will have 1 factory edge minimum
- If using pan head framing screws, add 1/16" to measurements

[illegible]

# DRAPE POCKET

JUMP TO

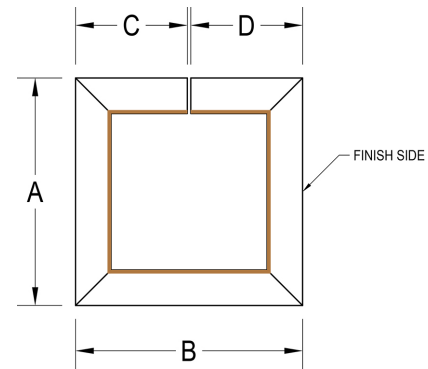

- All dimensions must be listed in inches
- The total of A + B must = 45.5" or less
- A 54" board can be used if A + B = more than 45.5" and less than 51.5"
- Standard profile lengths are 96" (8'), 120" (10'), and 144" (12')
- Custom profile lengths will incur additional cut charges
- Unless noted, all shapes will have 1 factory edge minimum
- If using pan head framing screws, add 1/16" to measurements

[illegible]

## BOX COLUMN WRAP

JUMP TO

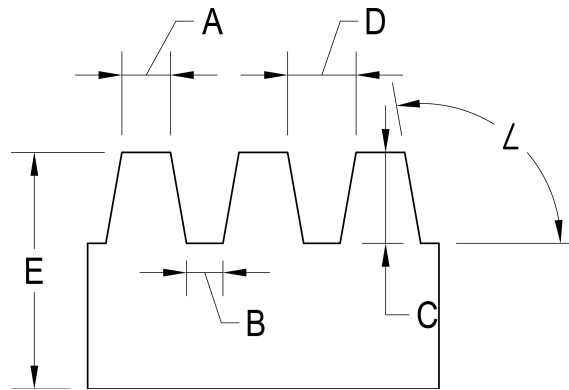

- All dimensions must be listed in inches
- The total of A + B must = 48" or less
- A 54" board can be used if A + B = more than 48" and less than 54"
- Standard profile lengths are 96" (8'), 120" (10'), and 144" (12')
- Custom profile lengths will incur additional cut charges
- Unless noted, all shapes will have 1 factory edge minimum
- If using pan head framing screws, add 1/16" to measurements

[illegible]

## CASTLE CUT

**JUMP TO**

- All dimensions must be listed in inches
- Standard profile lengths are 96" (8'), 120" (10'), and 144" (12')
- Custom profile lengths will incur additional cut charges
- Unless noted, all shapes will have 1 factory edge minimum
